

BCBS of Illinois Provider Search Instructions

Medical Blue Choice Options

1. Go to www.bcbsil.com.
2. Click on the box labeled "Find Care". Choose "Doctors or Hospitals" under "Find a Provider"
3. On next screen, scroll down to search for doctors as a guest. (Once you are active on the plan you may also login as a member to search.)
4. You will answer a few questions about how you obtain coverage including search location, type of plan (select Employer Plans) and state. You will then be asked the type of insurance you have. Select PPO.
5. You will then need to select the specific PPO network to search. **Select "Blue Choice Options [BCO]"**
6. Enter the provider name or specialty and search. You can also browse by category.
7. The default set up is to only show Tier 1 providers as they have the lowest cost coverage to members.
8. **If you don't see your provider and/or would like your search to include the both tiers of providers, you can click on the "Tiers" drop-down menu at the top, click "Clear" to unselect Tier 1 and then "Apply". In-network providers from both Tier 1 and Network will show.**

8. When results are shown from All Tiers, the provider profile will be labeled so you know if the provider is Tier 1. Your member responsibility, including deductible and out-of-pocket will be based on whether they are Tier 1 or Network providers.
